

What a Dollar Buys

Giving becomes concrete when people can picture it. Use this sheet to show your team what their gift does in Rhode Island.

This layout is ready to use once United Way supplies the impact figures. Each gift level below needs a current, verified statement of what that amount funds. They have been left blank on purpose — published impact claims should come from United Way's own programme data rather than an estimate.

GIFT LEVELS

\$5	provides ...
\$10	provides ...
\$25	provides ...
\$50	provides ...
\$100	provides ...
\$250	provides ...
\$500	provides ...
\$1,000	provides ...

GIVING AT A GLANCE

A useful companion to the figures above: show what a per-pay-period gift adds up to across a year, so employees can see the annual effect of a small deduction.

\$5 per pay period × __ pay periods = \$_____ a year

\$10 per pay period × __ pay periods = \$_____ a year

\$20 per pay period × __ pay periods = \$_____ a year

\$40 per pay period × __ pay periods = \$_____ a year

A NOTE ON DESIGNATED GIFTS

Gifts may be directed to the Community Impact Fund, to one of United Way's designated funds, or to any registered 501(c)(3) with a minimum annual gift of \$26 per organisation. Undesignated gifts are invested where the need is greatest.
